Turf Master

Cultivate a luxurious, velvety lawn that your neighbours will envy. Turf Master is 100% organic poultry manure fines enhanced with the benefits of pure blood and bone - the professional's choice for an exceptional lawn.

Product Information

Turf master is easy to apply and produces lush, healthy green lawns that any greenkeeper would be proud of.

Turf Master has:

- a poultry manure base that is naturally, aerobically composted to kill pathogens and support healthy levels of beneficial micro-organisms
- added pure blood and bone to deliver extra nitrogen, phosphorus and calcium and to control dust

It is:

- dried gently after processing to further support beneficial micro-organisms and help break down after watering
- a uniform size of under 2mm for easy use in fertiliser spreaders
- certified by Biological Farmers of Australia, Australia's foremost organic certification body

The benefits of using an organic fertiliser include:

- slow release of nutrients that feed plants over many months
- increased earthworm activity
- improved water retention and aeration
- increased micro-organisms and beneficial bacteria
- no burnt or damaged plants
- pH neutral

Use it on:

- golf courses
- lawns
- greens

Directions for use:

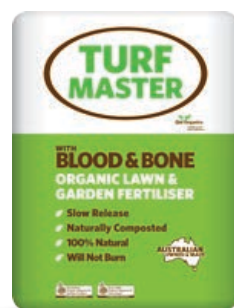

Spread 100-200 grams per square metre (1-2 tonnes per hectare).

Storage:

Store under cover away from moisture. Store out of reach of pets and avoid consumption.
