

Blood & Bone

Premium quality pure blood and bone fertiliser – a longstanding staple product used by domestic and professional gardeners alike.

Product Information

Blood and Bone is a highly effective natural fertiliser for your entire garden. Blood & Bone supplies nitrogen, phosphorous and calcium in a slow release form.

Qld Organics Blood & Bone:

- contains pure, organic, rich meat meal
- is composted to Australian Standards

The benefits of using an organic fertiliser include:

- slow release nutrients that feed plants over many months
- increased earthworm activity
- improved water retention and aeration
- increased micro-organisms and beneficial bacteria
- no burnt or damaged plants
- pH neutral

Use it on:

- trees
- shrubs
- turf/lawns
- garden beds

Directions for use:

Spread approximately 50-100 grams per square metre.

Storage:

Store under cover and away from moisture. Store out of reach of pets and avoid consumption.

Bag Size:

16 kg

1000 kg
